## ✓ RESILIENT AND VERSATILE

**AR Decor Zebra Blinds** and **Zebra Shades** are unique in both style and function. Zebra window treatments will make any room stand out and come in a variety of colors to fit your design requests. They are perfect for any contemporary home, office, or restaurant, with their clean, bold lines, combining superior light control with privacy.

Adding **Zebra blinds** to your windows helps transition the natural light levels from see-through to translucent to more privacy. This is mostly recommended to rooms where you want privacy and complete darkness if needed, like your bedroom.

**MODERN STYLE AND LOTS OF BEAUTIFUL FABRICS TO CHOOSE FROM.** From total blackout to sheer, you'll get these blinds in an exceedingly big selection of fabrics. Giving you a sleek and contemporary solution to your window elements.

**NATURAL INSULATION FOR YOUR HOME.** Zebra shades offer insulation or reduced heat loss from the windows because of layering. Keeping your home warm means stopping the transfer of heat from inside to outside.

# WIDE RANGE OF FABRIC AND COLOUR OPTIONS

## 3D SHADES

3D Shades operate like conventional roller blinds however they look like venetians made from sheer material and can be tilted or stacked upwards pending lighting and privacy requirements. This innovative translucent fabric provides any home with a warm glow, soft view, protection from UV rays and privacy control without completely darkening the environment.

## DUAL SHADES

Dual Shades operate like roller blinds too but have two fabric screens which overlap and can be adjusted to control lighting and privacy. As the solid and transparent panels cross over you have the option of exposing a view through the transparent sections, or close the strips to offer complete privacy.
