Built with **7mm high-grade aluminium**, the Diamond Grille Security is tempered for greater strength, resulting in added toughness. The distinctive Diamond Grille pattern provides a visual deterrent to thieves. Virtually maintenance free, diamond grilles and frames are available in a range of modern colours.

You can choose one of 4 meshes that are available to stop insects from coming inside without compromising the view and air flow with one also provides privacy. **Aluminum Mesh, One-Way Mesh, Standard Mesh, and Stainless-Steel Mesh**

Diamond Grille Security Screen Doors and Windows comply with Australian Standards. They also have the added benefit of half panels for added reinforcement.

A **DVA Mesh** is an aluminium mesh system that gives security yet additionally restricts the level of visibility from individuals outside your home peering inside.

This mesh has also been tested and meets Australian Standards **AS5039** and **AS5041**, including the following: Dynamic Impact test, Pull test, Jimmy test, Knife Shear test and Probe test.

316 Marine Grade Stainless Steel Mesh is a high tensile woven mesh resulting in an exceptionally strong, corrosion resistant product, powder coated in a very tightly controlled, chrome free environment.

In the case of window and door security screens required to be exposed to the elements over long periods of time, it makes sense that corrosion resistance is a fundamental consideration.

Heavy duty extruded aluminium perimeter frame for extra strength. 10x the strength of the **Australian Standard** in terms of absorbed energy.

PRODUCT RANGES

- Hinged Security Doors
- Sliding Security Doors

frame and style

All our hinged and sliding doors come with 3-Point locking as standard.

3-Point locks are significantly more secure as opposed to a single lock for the simple reason that it locks at three points on the jamb.
