SMOOTH AND LIGHT OPERATING ROLLER BLINDS

Featuring a sleek architectural design with smooth operation and unrivalled inner strength and a technology that allows you to span even the largest window beautifully. Highly durable hardware delivers smooth and reliable operation.

INNER STRENGTH. The system is available with a 50mm or 65mm aluminum tube. Both tubes have been engineered with symmetrical keyways to reduce deflection over large expanses.

SMOOTH AND LIGHT OPERATION. Chain-operated rollers are now available with extended limitations to cater for longer drops, while motorization has flourished with a wide selection of motor options. Now you can select from the most superior motorized solutions to link blinds up to 30m² or simply motorize a single-blind with a simple affordable solution.

FABRIC RANGE. A range of new fabric options that were never offered are now available. Fabrics are treated with a Fabric Protector, which effectively repels most stain-causing agents with its proven, water-based, preventative formula. Your AR Décor Roller Blinds can resist water stains from rain, moisture, and condensation on windows and oily stains from spills or fingerprints

FABRIC OPTIONS

Made of selected materials that are comfortable and safe for you.

SUNSCREEN

Sunscreen fabrics allow for heat and light control whilst maintaining your view.

SHEER

Sheer fabrics give daytime privacy and some filtered view-through subject to the texture and weave.

BLACKOUT

Blackout fabrics offer the ultimate level of privacy, day and night whilst helping to insulate the room.
