## CURTAINS MADE EASY WITH AR DECOR

A lot of rooms in your home needs to have some level of light control, whether it's just reducing brightness in your living room or completely blocking out light in your bedroom, Drapes and Curtains can be the best option for you. They are very customizable. You can get them in all different colors, fabrics and styles. You can also purchase curtains that can either accent or enhance the colors of your room, as curtains can be both practical and aesthetic. While a traditional set of blinds can offer many of the same advantages, they don't have the same coziness and style as a nice set of curtains.

**Drapes and Curtains** can certainly add a level of style to your home and serve several functions and benefits, however, when it comes to drapery styles, the options can be overwhelming, to say the least! AR Decor team is here to help you choose the right header styles that would look perfect for your windows. We are partnered with trusted fabric and track brands. These fabrics are made of selected materials that are comfortable and safe for you and your family.

Give us a call now at **02 8003 3337** to learn more about these options.

BRANDS.

ONE-STOP SHOP FOR YOUR DECORATIVE AND SECURITY NEEDS

## ✔ FEATURES AND BENEFITS

- **Curtains have a soft and sophisticated look.** They are more practical and heavy-duty than they appear and will keep your room warmer in the winter and cooler in the summer. Fabrics have been tested for suitability under harsh Australian conditions.
- **Provide Privacy & Light Control.** AR DECOR offers five types of shades to choose from. If you live in a busy street and you don't want anyone looking inside your home, curtains can of course prevent that. Also, if you don't want any light, you let the curtains down. This can be very useful when you're working on a computer or watching a movie.
- **Curtains Prevent Dusts.** Curtains can be beneficial because they prevent dust from building up in the room. Curtains collect dust from places close to them. That will keep the dust from piling up in other areas of your bedroom. Remember to periodically shake out or wash the curtains, because they gather a lot of dust over time.
